

SAMEER WALKE

Software Test Engineer (SDET)

Nashik, Maharashtra, India | sameerwalke9757@gmail.com | +91 7666849757 | linkedin.com/in/samwalke08 | github.com/sameerwalke1

PROFESSIONAL SUMMARY

Software Test Engineer with hands-on experience as a Programmer Analyst Trainee at Cognizant, specializing in Cypress and TOSCA automation, UI/API testing, and building scalable, maintainable test frameworks. Solid foundation in Core Java, SQL, and OOPs concepts, with practical exposure to Git/GitHub, CI/CD pipelines, and Agile delivery. Currently contributing to a live enterprise automation and manual project (Woolworths) and looking to grow further as an SDET / QA Automation Engineer.

CORE SKILLS

Automation & Testing: Cypress, TOSCA Automation, Manual Testing, QEA

Programming: Core Java, JavaScript, SQL, OOPs

Tools & Practices: Git & GitHub, JDBC, SDLC, Agile/Scrum

Web Technologies: HTML, CSS

EXPERIENCE

Programmer Analyst Trainee — Cognizant Technology Solutions

Jan 2026 – Present

- Completed structured training in Cypress automation, focusing on fixture-driven test data management and UI/API integration testing.
- Working on the Woolworths enterprise project, contributing to automation and manual testing frameworks to improve coverage and reliability.
- Collaborating with cross-functional, Agile teams to design, review, and execute test cases, ensuring maintainable and defect-free releases.
- Applying TOSCA and Cypress in tandem to strengthen end-to-end regression and functional test coverage.
